TAVALINO ENERGY SERVICES LTD

Overview

Zetatech Energy Services Limited. is a forward-thinking renewable energy company specializing in the design, installation, and maintenance of solar energy infrastructure. We are committed to delivering sustainable, reliable, and cost-effective energy solutions for residential, commercial, and industrial clients.

Mission

To accelerate the adoption of clean energy by providing innovative solar solutions that reduce carbon emissions and energy costs.

Vision

To be a leading provider of solar energy infrastructure in Africa, powering communities and businesses with sustainable energy.

Core Services

- **Solar Power System Design & Engineering**
Customized solar solutions tailored to client energy needs.
- **Procurement & Installation**
Supply and installation of high-quality solar panels, inverters, and battery systems.
- **Operation & Maintenance (O&M)**
Ongoing system monitoring, maintenance, and optimization.
- **Energy Storage Solutions**
Integration of battery storage systems for energy reliability.
- **Mini-Grid & Off-Grid Systems**
Deployment of solar infrastructure in remote and underserved areas.
- **Consulting & Energy Audits**
Assessment of energy usage and recommendations for efficiency improvements.

Products & Technologies

- Photovoltaic (PV) Solar Panels
 - Hybrid and Off-Grid Inverters
 - Lithium-ion Battery Storage Systems
 - Solar Street Lighting Systems
 - Monitoring & Smart Energy Management Systems
-

Target Markets

- Residential Homes
 - Commercial Buildings
 - Industrial Facilities
 - Government & Public Sector
 - Rural & Off-Grid Communities
-

Key Strengths

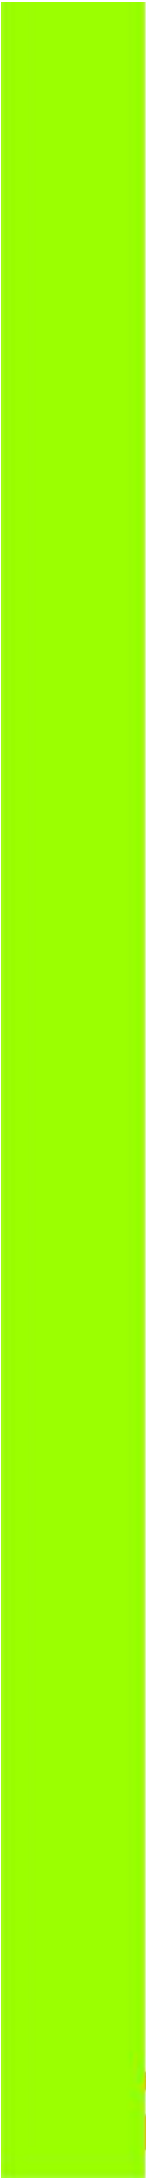

- Experienced engineering and technical team
 - Use of high-quality, certified equipment
 - Strong project management capabilities
 - Commitment to sustainability and innovation
 - Customer-centric approach
-

Sustainability Commitment

We actively contribute to reducing greenhouse gas emissions by replacing fossil fuel-based energy sources with clean solar alternatives. Our projects are designed to promote environmental responsibility and long-term energy independence.

Notable Projects

- Installation of solar systems for commercial facilities
 - Rural electrification through mini-grid solutions
 - Solar-powered street lighting project
-

“INTERNATIONAL PARTNERSHIP”

In furtherance of our drive to provide affordable and clean energy to our Government, /Corporate, Commercial business and Households, The Executive team of Tavalino Energy Services Limited, paid a business finalisation visit to ZETATECH

Release time: 2026.04.29

ZETATECH recently welcomed two key clients from Nigeria to Chengdu for an in-depth visit to the company's headquarters and advanced energy storage manufacturing facilities, marking another significant milestone in the company's global market expansion.

Advanced Manufacturing Excellence Showcased

During the visit, the Nigerian delegation toured ZETATECH's state-of-the-art production base, gaining firsthand insight into the company's comprehensive manufacturing capabilities across both commercial & industrial (C&I) and residential energy storage sectors. The clients visited two C&I energy storage production lines and two residential storage production lines, where they observed critical manufacturing processes including OCV sorting, polarity testing, and End-of-Line (EOL) inspection, ensuring every product meets the highest international quality standards.

The delegation also explored ZETATECH's 500-square-meter testing center, where all products undergo rigorous charge-discharge and performance validation before delivery. With over 120 residential energy storage testing stations and 20 C&I testing stations, ZETATECH's testing capacity fully supports large-scale daily production while maintaining exceptional product reliability.

Comprehensive Product Portfolio and Utility-Scale Innovation

In the product exhibition area, the clients reviewed ZETATECH's flagship solutions, including the highly flexible and modular 261kWh battery cabinet and electrical cabinet system, which can be customized with PCS, MPPT, STS, and other modules according to project requirements. They also explored the MiniCub series, available in 80kWh and 96kWh versions, along with ZETATECH's diverse residential product portfolio, including wall-mounted batteries, rack-mounted batteries, and floor-standing systems.

A highlight of the visit was the tour of ZETATECH's new factory rooftop distributed solar project, featuring 1.6MW of photovoltaic generation paired with 3.4MWh of energy storage capacity, providing sustainable power support for factory operations. The clients also visited the company's advanced 5MWh containerized energy storage system, which integrates a 2.5MW power conversion and boosting unit with 2500kW PCS units and a 2500kVA transformer, demonstrating ZETATECH's robust capabilities in utility-scale energy solutions.

Corporate Strength and Smart Microgrid Leadership

At ZETATECH's headquarters, the clients toured the 800-square-meter corporate showroom, where they gained deeper understanding of the company's

20-year development journey, global market footprint, corporate culture, and three major business sectors: catalysts, energy storage, and composite materials.

ZETATECH also introduced its innovative microgrid solution, which combines solar, storage, and diesel generation in a highly reliable integrated architecture. This system is particularly suitable for islands, remote off-grid areas, and high-electricity-cost regions, offering both off-grid and grid-connected operational flexibility.

Strategic Partnership Accelerates Africa Expansion

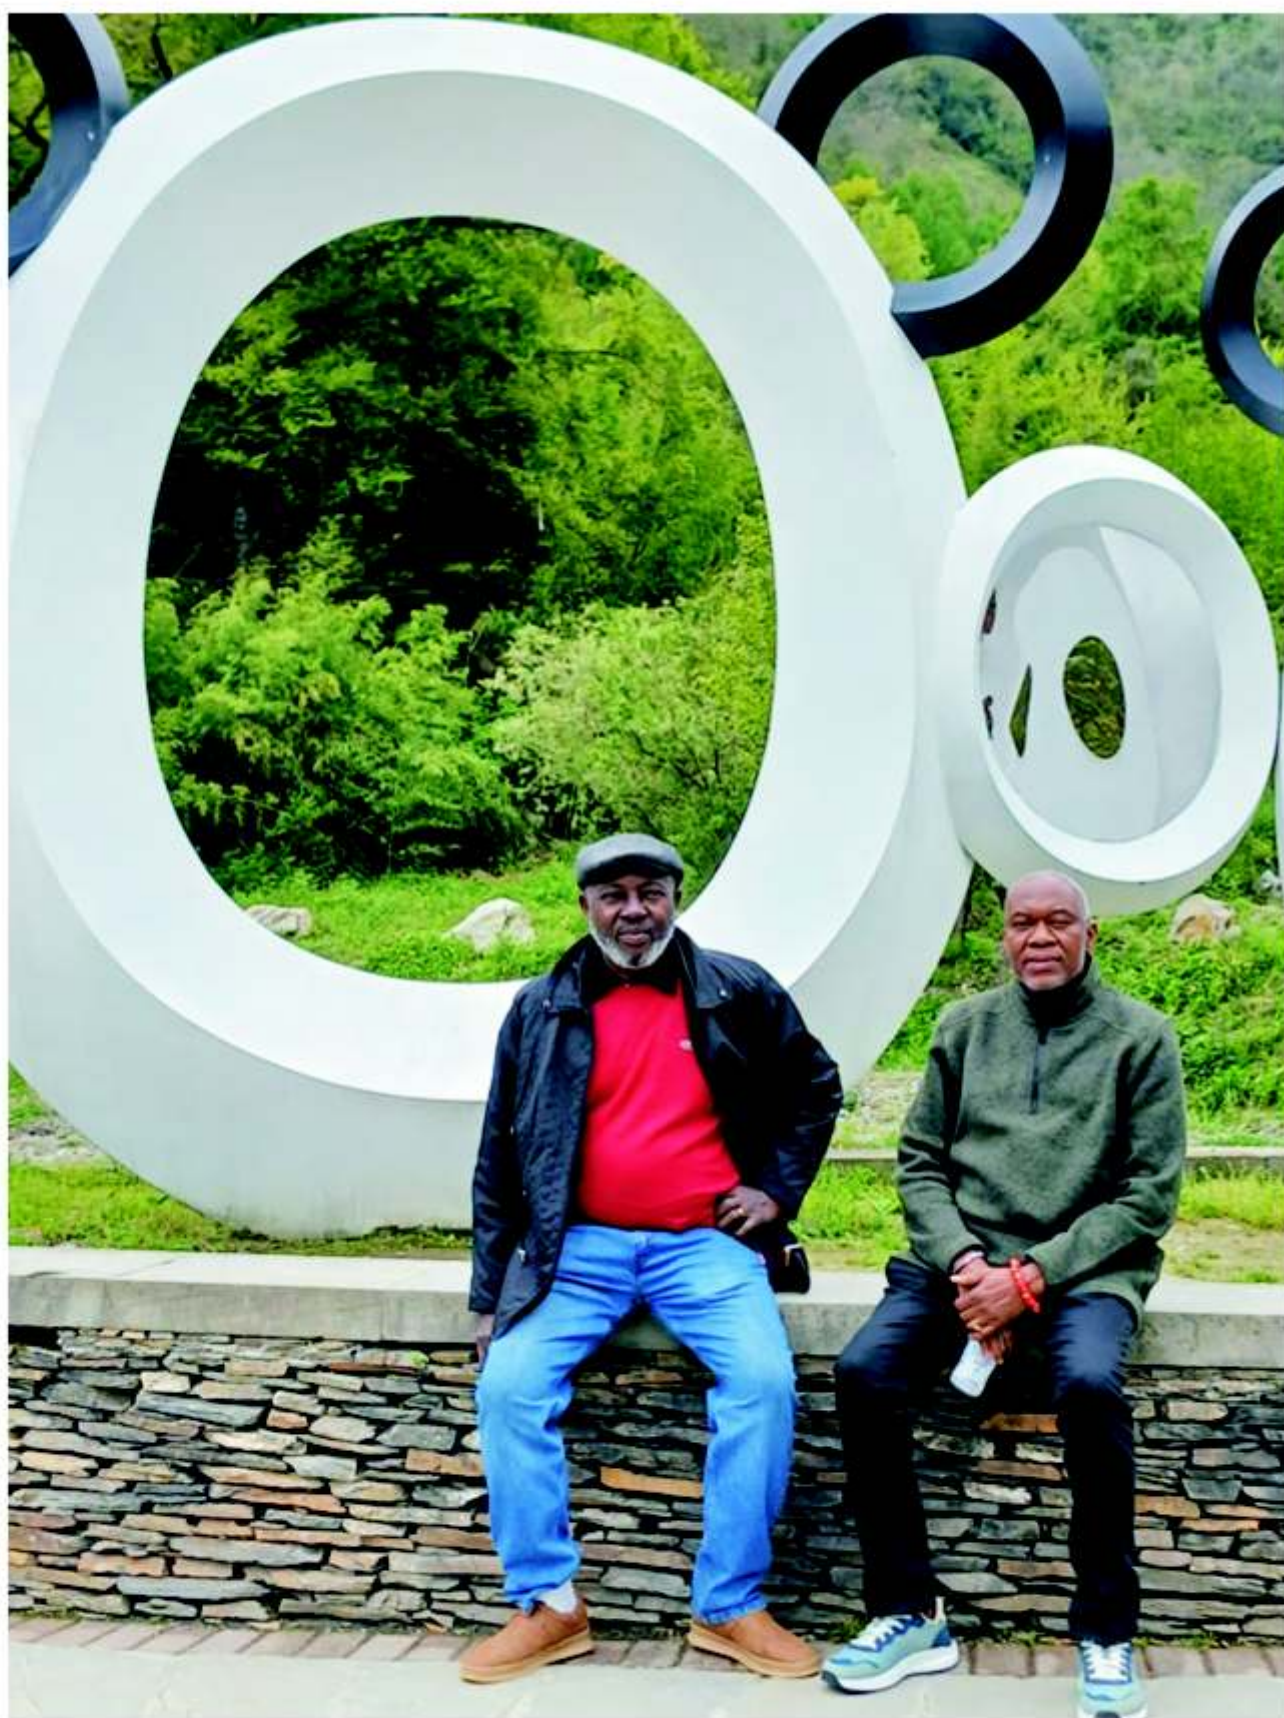

Following productive business discussions with company leadership, ZETATECH successfully signed a strategic cooperation agreement with the Nigerian clients. This partnership further strengthens ZETATECH's presence in the African energy storage market and reinforces its commitment to delivering advanced, flexible, and reliable clean energy solutions worldwide.

TAVALINO ENERGY SERVICES LTD

PROJECT SHOWCASE

Large Scale deployment of 200kwp/ photovoltaic (PV)
Energy storage charging (PSC) project by Tavalino Energy services,
uses power from PV and storage during the day time and peak hours,
achieving cost reduction and efficiency improvement for enterprises
at Guzape Abuja Nigeria.

Construction of 760kwo mini Grid project at Ezza LGA
in Ebonyi State of Nigeria

Installation of 60KWP residential solar system at Akasa Street
Old G.R.A Port-Harcourt Rivers State, Nigeria

Large Scale deployment of solar mini Grid System tied PV at BFW Bagalore, in partnerships with EBERAPA RC Energy PVT Ltd

Installation of 100kw solar inverter system at Amokwe in Udi Enugu State, Nigeria.

30KW residential solar system Installation in
Old G.R.A Portharcourt Rivers State of Nigeria

20KW solar Inverter system
Installation at Family Clinic
Garki Abuja, Nigeria.

40KW residential solar system Installation
at William Jombo Street G.R.A
Portharcourt Rivers State Nigeria.

30KW residential solar system Installation in Old G.R.A
Portharcourt Rivers State of Nigeria

Deployment of 70KWP solar mini grid
system at Ofante Ogugu in Kogi State
Nigeria

installation 20Kw solar system in
Owerri Imo State Nigeria

Installation of 20KVA Solar Inverter Home system at Gwarinpa Abuja

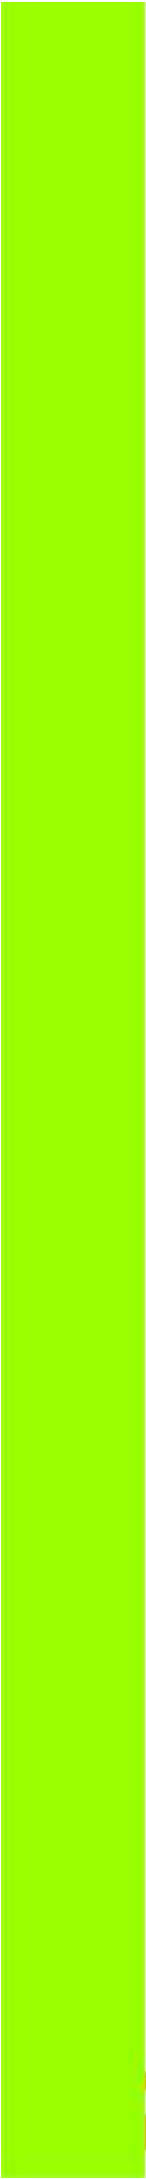

Installation of 15KVA Solar Inverter Home system at Kaduna State Nigeria

World Bank Certified Stand alone solar home system distributed across Nigeria by Tavalino Energy services in partnership with Nigeria Rural Electrification Agency (R.E.A)

Deployment of 60KWP solar mini grid system at Ofante Ogugu in Kogi State Nigeria

THANK YOU.
